GENERAL PROVISIONS

§ 706.201 *Required performance.* Each participating producer shall, on every turpentine farm owned or operated by him during the 1951 turpentine season, carry out one of the approved conservation practices in every tract or drift of faces that were installed during the 1947, 1948, 1949, 1950, and 1951 seasons, unless the Forest Service approves face installations made without carrying out a conservation practice. In cases where such approval is given for specific tracts or drifts of the turpentine farm, no payment will be made for any faces in such tracts or drifts.

§ 706.202 *Inspection assistance.* Each producer shall assist representatives of the Forest Service in the administration of this program by:

- Giving them free access to his turpentine farm or farms;
- Counting all faces and keeping written records thereof separately by tracts and drifts;
- Furnishing count records and satisfactory evidence of control of faces to the local inspector when requested;
- Furnishing information on burned areas, cutting operations, and interest in other turpentine farms as requested;
- Furnishing competent labor to assist the local inspector in counting faces;
- Submitting an application for payment (Form NSCP-1503) and other prescribed forms;
- Notifying the Forest Service promptly of any change in ownership or control, and
- Otherwise facilitating the work of the inspector in checking compliance with the terms and conditions of this program.

§ 706.203 *Fire protection.* Each producer shall cooperate with any existing cooperative fire control system serving the general area where his turpentine

farm is located, unless he is otherwise following approved forest fire protection on his turpentine farm.

CONSERVATION PRACTICES AND RATES OF PAYMENT

§ 706.210 *Conservation practices and rates of payment.* No tract or drift can qualify for payment under more than one conservation practice. No tract or drift having virgin faces installed can qualify for a payment unless the shoulder of the first streak on any face on a round tree which is not deformed is less than 18 inches from the ground. In each of the practices the faces are to be worked sufficiently to obtain at least one dipping of gum.

§ 706.211 *Cupping only trees 9 inches or over d. b. h.; 2 cents per face.—(a) Payment.* Payment for this practice is limited to tracts or drifts having only virgin working faces, i. e., faces installed for the first working during the 1951 season.

(b) *Performance.* Trees on which faces are installed shall be selected in a manner that will result in having no faces (except back faces on trees having a worked-out face) on trees which are less than 9 inches d. b. h. and only one face on trees less than 14 inches d. b. h.: *Provided,* That the installation of two cups on trees less than 14 inches d. b. h. in any tract or drift may be approved by the Forest Service as meeting the performance requirements of this paragraph where the Forest Service has determined such action conforms to sound forest conservation practice. If faces have been installed contrary to these performance requirements, the cups and tins for such faces shall be removed within 30 days after being discovered unless a longer period of time for their removal is approved by the Forest Service.

§ 706.212 *Continuation of working faces on trees 9 inches or over d. b. h.; ½ cent per face.—(a) Payment.* Payment for this practice is limited to tracts or drifts having faces installed during the 1947, 1948, 1949, and 1950 seasons, together with any new faces that may have been installed within such tracts or drifts during the 1951 season.

(b) *Performance.* With the exception of back faces on trees having a worked-out face, the only faces that may be continued as working faces are those on trees which are at least 9 inches d. b. h., and not more than one face may be continued on any tree which is less than 14 inches d. b. h.: *Provided, however,* That faces installed during or after the 1947 season which do not meet the above requirements but were approved for payment under a previous program, will be accepted under this practice if such faces are still being worked in 1951. If faces have been installed contrary to the requirements, the cups and tins on such faces shall be removed within 30 days after being discovered, unless a longer period of time for their removal is approved by the Forest Service.

§ 706.213 *Cupping only trees 10 inches or over d. b. h.; 3½ cents per face.—(a) Payment.* Payment for this practice is limited to tracts or drifts hav-

ing only virgin working faces, i. e., faces installed for the first working during the 1951 season.

(b) *Performance.* Trees on which faces are installed shall be selected in a manner that will result in having no working faces on round trees which are less than 10 inches d. b. h. and only one face on trees less than 14 inches d. b. h.: *Provided,* That the installation of two cups on trees less than 14 inches d. b. h. in any tract or drift may be approved by the Forest Service as meeting the performance requirements of this paragraph where the Forest Service has determined such action conforms to sound forest conservation practice. If upon inspection it is found that round trees are cupped less than 10 inches d. b. h., the producer may qualify for payment under the practice specified in § 706.211.

§ 706.214 *Continuation of working faces on trees 10 inches or over d. b. h.; 2 cents per face—(a) Payment.* Payment for this practice is limited to tracts or drifts on which a payment was earned for the 10 inches diameter cupping under the 1950 program.

(b) *Performance.* New faces installed on any trees in these tracts or drifts will disqualify the tracts or drifts for payment under this practice. If, however, new faces have been installed on any trees, the entire tracts or drifts will be considered only for qualification under the provisions of § 706.212. There may be withheld or required to be refunded, 2 cents per face for each face in the tracts or drifts in which such installation occurs and for which a payment was made in 1950.

§ 706.215 *Cupping only trees 11 inches or over d. b. h.; 4½ cents per face—(a) Payment.* Payment for this practice is limited to tracts or drifts having only virgin working faces, i. e., faces installed for the first working during the 1951 season.

(b) *Performance.* Trees on which faces are installed shall be selected in a manner that will result in having no working faces on round trees which are less than 11 inches d. b. h., and only one face on trees less than 14 inches d. b. h.: *Provided,* That the installation of two cups on trees less than 14 inches d. b. h. in any tract or drift may be approved by the Forest Service as meeting the performance requirements of this paragraph where the Forest Service has determined such action conforms to sound forest conservation practice. If upon inspection it is found that round trees are cupped below 11 inches d. b. h., the producer may qualify for practices described in §§ 706.211 or 706.213.

§ 706.216 *Continuation of working faces on trees 11 inches or over d. b. h.; 2½ cents per face—(a) Payment.* Payment for this practice is limited to tracts or drifts which met the requirements described in § 706.215 in 1949 and 1950.

(b) *Performance.* New faces installed on any trees in these tracts or drifts which earned a payment for the 11 inches cupping practice will disqualify the tracts or drifts for payment under

this practice. If, however, new faces have been installed on any trees, the entire tracts or drifts will be considered for qualification only under the provisions of § 706.212. There may be withheld or required to be refunded 2½ cents per face for each face in the tracts or drifts in which such installation occurs and for which payment was made in 1949 and 1950.

§ 706.217 *Restricted cupping; 5 cents per face—(a) Payment.* This practice limits the installation of new 1951 virgin faces to previously worked trees.

(b) *Performance.* Trees on which faces are installed shall be selected in a manner that will result in having no faces on round trees. If, upon inspection, it is found that this requirement is not met, tracts or drifts may qualify for payment under the practice specified in §§ 706.211, 706.213 or 706.215.

§ 706.218 *Continuation of restricted cupping practice; 2½ cents per face—(a) Payment.* Payment for this practice is limited to those tracts or drifts which qualified for the restricted cupping practice in 1950.

(b) *Performance.* New faces installed on any trees in these tracts or drifts which earned a payment for the restricted cupping practice will disqualify the tracts or drifts for payment under this practice. If, however, new faces have been installed on any trees the entire tract or drift will be considered for qualification only under the provisions in § 706.212. There may be withheld or required to be refunded 3 cents per face for each face in the tracts or drifts in which such installation occurs and for which a payment was made in the 1950 program.

§ 706.219 *Selective cupping; 7 cents per face.* Only trees which should be removed in the future to improve the timber stand will be cupped.

(a) *Payment.* Payments for this practice is limited to tracts or drifts having only virgin working faces, i. e., faces installed for the first working during the 1951 season.

(b) *Performance.* Trees on which faces are installed shall be selected in a manner that will result in leaving well distributed over the area at least as many round trees 9 inches or more d. b. h. uncupped as are cupped. The working area shall have a minimum of 25 uncupped round trees per acre which are 9 inches or more d. b. h. Under both of these conditions the cupped trees may be of any size. When these requirements are not met, the area will be considered for qualification under one of the diameter cupping practices as specified in §§ 706.211, 706.213, or 706.215.

§ 706.220 *Continuation of selective cupping practice on selected trees; 3 cents per face—(a) Payment.* Payment for this practice is limited to those tracts or drifts which qualified for the selective cupping practice in the 1947, 1948, 1949, or 1950 program.

(b) *Performance.* New faces installed on round trees in these tracts or drifts will disqualify the tracts or drifts for

payment under this practice. If, however, new faces have been installed on round trees the entire tract or drift will be considered for qualification only under the provisions of § 706.212. There may be withheld or required to be refunded 4 cents per face for each face in the tracts or drifts in which such installation occurs, and for which a payment was made in 1947, 1948, 1949, or 1950 program.

§ 706.221 *Selective recupping; 8 cents per face—(a) Payment.* Payment for this practice is limited to tracts or drifts which were worked and earned a payment under the selective cupping practice of a previous program.

(b) *Performance.* Faces will be installed only on previously worked trees, and no faces will be installed on round trees. If, upon inspection by the Forest Service, it is found this requirement is not met, the tracts or drifts may qualify for payment under the practice specified in §§ 706.211, 706.213, or 706.215.

§ 706.222 *Continuation of selective recupping; 3½ cents per face—(a) Payment.* Payment for this practice is limited to those tracts or drifts which qualified for a payment under the selective recupping practice of the 1950 program.

(b) *Performance.* New faces installed on round trees in these tracts or drifts will disqualify the tracts or drifts for payment under this practice. If, however, new faces have been installed on round trees, the entire tract or drift will be considered for qualification only under § 706.212. There may be withheld or required to be refunded 5 cents per face for each face in the tracts or drifts in which such installation occurs and for which a payment was made in the 1950 program.

§ 706.223 *Pilot plant tests; 8 cents or 11 cents per face—(a) Payment.* Payment for this practice will be limited to a small number of producers who are selected by the Forest Service to conduct controlled experiments in new methods and equipment for gum production. The 8 cents per face payment will apply to faces installed in accordance with provisions of § 706.211 or 706.212. The 11 cents per face payment will apply to faces installed in accordance with the provisions of §§ 706.213, 706.214, 706.215, 706.216, 706.217, 706.218, 706.219, 706.220, 706.221 or 706.222.

(b) *Performance.* The experiments are to be carried out in accordance with provisions prescribed by the Forest Service.

§ 706.225 Practices defeating purposes of programs. If the Forest Service finds that any producer has adopted or participated in any practice which tends to defeat the purposes of this program or previous programs, it may withhold or require to be refunded all or any part of any payment which has been or otherwise would be made to such producer under this program. Practices which tend to defeat the purposes of this and previous programs shall include, but are not restricted to, the following:

(a) The cutting contrary to good forestry practice of turpentine trees in drifts or tracts (including current non-working areas) on which conservation payments have been or would be made under this or the 1947, 1948, 1949, or 1950 programs. There may be withheld or required to be refunded 3 cents per face for each face that was worked in 1947,

1948, 1949, 1950, or 1951 in the tracts or drifts in which such cutting occurs. Conformity to the following rules shall be considered good cutting practice.

(1) Round or scarred turpentine trees should only be cut for thinnings or higher economic use. When such trees are cut for thinnings at least 150 trees per acre of approximately the same size as the trees which are cut should be left uncut and undamaged and well distributed over the cutting area.

(2) When an area contains less than 150 round or scarred turpentine trees per acre which are 8 feet or more in height, at least six thrifty turpentine seed trees per acre, 10 inches or more d. b. h., shall be left uncut and undamaged.

(3) When round or scarred trees are cut for higher economic use, such as high quality timbers, poles, or piling, at least six thrifty turpentine seed trees per acre, 10 inches or more d. b. h., shall be left uncut and undamaged.

(b) The burning by the producer on any drift or tract of his turpentine farm which will destroy natural reforestation on land which is not fully stocked with turpentine trees or which will result in damage to established turpentine tree reproduction. There may be withheld or required to be refunded all or any part of the payment earned under this program on the drifts or tracts in which such improper burning occurs.

(c) The installation of new faces on round trees less than 9 inches d. b. h. or more than one face on round trees less than 14 inches d. b. h. in tracts or drifts having working faces installed during or prior to the 1946 turpentine season. There may be withheld or required to be refunded, 2 cents per face for each working face installed during or prior to 1946 in the tracts or drifts in which such installation occurs.

§ 706.226 Payment computed and made without regard to claims. Any payment or share of payment shall be computed and made without regard to questions of title under State law; without deduction of claims for advances (except as provided in § 706.227 and except for indebtedness to the United States subject to set-off under orders issued by the Secretary (12 F. R. 1187)) and without regard to any claim or lien against any crop, or proceeds thereof, in favor of the owner or any other creditor.

§ 706.227 Assignments. Any producer who may be entitled to any payment in connection with this program may assign his payment, in whole or in part, as security for cash loaned or advances made for the purpose of financing the making of a crop in 1951. No assignment will be recognized unless it is made in writing on Form ACP-69 in accordance with the applicable instructions (ACP-70), witnessed, however, by an inspector or the program supervisor of the Forest Service and filed with the Forest Service, Valdosta, Georgia.

§ 706.228 Death, incompetency, or disappearance of producer. In case of death, incompetency, or disappearance of any producer, his share of the payment shall be paid to his successor, de-

termined in accordance with the provisions of the regulations in ACP-122, as amended. (5 F. R. 2875; 6 F. R. 1647, 4430; 9 F. R. 12237)

§ 706.229 Payments limited to \$2,500. The total of all payments made in connection with the 1951 Naval Stores Conservation Program and the 1951 Agricultural Conservation Program to any producer participating in said program(s) shall not exceed the sum of \$2,500.

§ 706.230 Evasion. All or any part of any payment which has been or otherwise would be made to any producer participating in this program may be withheld or required to be refunded if he has adopted, or participated in adopting any scheme or device, including the dissolution, reorganization, revival, formation, or use of any corporation, partnership, estate, trust, or any other means, which was designed to evade, or which has the effect of evading, the provisions of § 706.229.

APPLICATION FOR PAYMENT

§ 706.232 Persons eligible to file applications. An application for payment may be filed by any producer who is working faces for the production of gum naval stores, during the 1951 turpentine season, which were installed during or after the 1947 season. If one producer conducts the operation of a turpentine farm during a portion of the 1951 turpentine season and another producer conducts the operation of the turpentine farm during the remainder of the season, the producer who completes the conservation practices shall file the application.

§ 706.233 Time and manner of filing applications and information required. Payments will be made only when a report of performance is submitted to the Forest Service on or before January 15, 1952, on the prescribed form (NSPC-1503) Application for payment. Payment may be withheld from any producer who fails to file any form or furnish any information required with respect to any turpentine farm which is being operated by him.

APPEALS

§ 706.234 Appeals. Any producer may, within 15 days after notice thereof is forwarded to or made available to him, request the Regional Forester in writing to review the recommendation or determination of the Program Supervisor in any matter affecting the right to or the amount of payment with respect to the producer's turpentine farm. The Regional Forester shall notify the producer of his decision in writing within 30 days after the submission of the appeal. If the producer is dissatisfied with the decision of the Regional Forester he may, within 15 days after the decision is forwarded to or made available to him, request the American Turpentine Farmers Association Cooperative, Valdosta, Georgia, in writing to appoint a committee of fellow producers to review the case; if the committee does not concur with the decision of the Regional Forester, the producer may request the Chief of the Forest Service to review the case

and render his decision, which shall be final.

This program is approved pursuant to the authority vested in the Secretary of Agriculture under sections 7 to 17, inclusive, of the Soil Conservation and Domestic Allotment Act, as amended, and is contingent upon legislative authority to the Secretary to exercise after December 31, 1950, the powers now conferred on him by section 8 of the Soil Conservation

and Domestic Allotment Act, as amended.

§ 706.238 *Applicability*. (a) The provisions of this program are not applicable to any turpentine operations within the public domain of the United States, including the lands and timber owned by the United States which were acquired or reserved for conservation purposes, or which are to be retained permanently under Government ownership (such lands include, but are not limited to, lands owned by the United States which are administered by the Forest Service or the Soil Conservation Service of the Department of Agriculture, or by the Bureau of Land Management or the Fish and Wildlife Service of Department of the Interior).

(b) This program is applicable to (1) turpentine farms on privately owned lands, (2) lands owned by a State or a political sub-division or agency thereof, or (3) lands owned by corporations which are either partly or wholly owned by the United States, provided such lands are temporarily under such government or corporation ownership and are not acquired or reserved for conservation purposes. Only turpentine farms on lands that are administered by the Farmers Home Administration, the Reconstruction Finance Corporation, the Home Owners' Loan Corporation, or the Federal Farm Mortgage Corporation, Federal Land Banks, Production Credit Associations, or the Departments comprising the National Military Establishment, shall be considered eligible unless the Forest Service finds that land administered by any other agency complies with all of the foregoing provisions for eligibility.

§ 706.239 *Administration*. The Forest Service shall have charge of the administration of this program and is hereby authorized to prepare and to issue such bulletins, instructions, and forms (subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942), and to make such determinations as may be required to administer this program, pursuant to the provisions of this bulletin; and the field work shall be administered by the Forest Service through the office of the Regional Forester, United States Forest Service, Glenn Building, Atlanta, Georgia. The procedural requirements of this bulletin, such for example as those relating to notice of proposed action and consent thereto, may be waived by the Forest Service when in its judgment such

waiver does not otherwise materially affect compliance with program practices. Information concerning this program may be secured from the Forest Service, Valdosta, Georgia, or from any local Inspector of the Forest Service.

Done at Washington, D. C., this 9th day of October 1950.

Chapter I—Civil Aeronautics Board

Subchapter A—Civil Air Regulations

[Supp. 5]

PART 42—IRREGULAR AIR CARRIER AND OFF-ROUTE RULES

MAINTENANCE AND INSPECTION; ALL AIRCRAFT, PERFORMANCE DATA ON CURTISS MODEL C46 AIRCRAFT

Section 42.31-3 is amended to read:

§ 42.31-3 *Maintenance and inspection*; all aircraft (CAA policies which apply to § 42.31 (a) (1) and (2)).

(2) Operators who have not had the experience necessary to demonstrate the ability to operate and maintain the pertinent engine in accordance with subparagraph (1) of this paragraph, may have basic overhaul time limitations established at a figure not to exceed 500 hours for the engine concerned.

Amendment of these basic periods may be accomplished when service experience indicates that such action is in the interest of safety. The periods should be reduced if it is found that failures or other difficulties are occurring consistently at a time since overhaul which is near the established overhaul period. The period may be increased when properly substantiated in accordance with the procedures outlined in CAM 42.32-4 (b) insofar as they apply. In those cases where the operator complies with the alternative set forth in CAR 42.31 (a) (2) and is not required to maintain a maintenance manual, the amended periods will be stated in a letter from the appropriate CAA regional office. This letter should be retained with the operating certificate to which it pertains and will constitute the air carrier's maintenance time limitations.

In Fig. 2 of § 42.80-1 *Performance data on Curtiss Model C46 aircraft certificated for maximum weights of 45,000 pounds to 48,000 pounds (CAA rules which apply to § 42.80)*, change the weight from "38,000 lbs." to "39,000 lbs." in the chart of take-off field lengths.

(Sec. 205, 52 Stat. 934, as amended; 49 U. S. C. 425. Interpret or apply Secs. 601, 604, 605, 52 Stat. 1007, 1010, 1011, as amended; 49 U. S. C. 551, 554, 555.)

This policy shall become effective upon publication in the FEDERAL REGISTER.

OFF-ROUTE RULES
FACILITIES

Section 42.32-1 is amended to read as follows:

§ 42.32-1 *Facilities* (CAA interpretations which apply to § 42.32 (a).) Air carrier operators must provide facilities equivalent, at least, to minimum requirements set forth in CAR 52 in respect to facilities for inspection, maintenance, overhaul and repair of aircraft and, in addition, must provide such other facilities as are necessary to accomplish all functions outlined in the maintenance manual. Some operators will choose to contract maintenance functions to outside agencies. In such cases, it will be necessary that the agencies performing major overhauls, repair or alteration under contract, be those specified in § 18.10 (b) or (c) of this chapter.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpretation or applies secs. 604, 605, 52 Stat. 1010, as amended; 49 U. S. C. 554, 555)

Chapter III—Bureau of Foreign and Domestic Commerce, Department of Commerce

Subchapter C—Office of Industry and Commerce [5th Gen. Rev. of Export Regs., amdt. 19¹]

PART 372—PROVISIONS FOR INDIVIDUAL AND OTHER VALIDATED LICENSES

PART 373—LICENSING POLICIES AND RE- LATED SPECIAL PROVISIONS

MISCELLANEOUS AMENDMENTS

1. § 372.12 *Weight and volume tolerance* is amended in the following particulars:

Paragraph (e) *Partial shipments* is amended to read as follows:

(e) *Partial shipments*. Whenever one or more partial shipments of the licensed commodity have been made, the license remains valid only for the unshipped balance of the licensed commodity plus 10 percent of such balance, except that in the case of shipments of iron and steel products (processing code STEE), tinplate (processing code TNPL), and of raw cotton except lint (pounds and bales) (processing code TEET), the tolerance of 10 percent shall be applicable as provided in paragraph (c) of this section, regardless of whether partial shipments are made.

¹ This amendment was published as subjects I and II of Current Export Bulletin No. 587 dated September 28, 1950.

NOTE: When shipments are cleared against a BLT license, the applicable tolerance may be applied to the quantity approved for export to each single consignee, provided, however, that the total amount shipped against the license does not exceed the total amount approved for export plus 10 percent. In other words, the tolerance provisions may be applied on the amount approved for each consignee in the same manner and to the same extent as if he were the only consignee named in an individual license.

A new paragraph (f) is added to read as follows:

(f) *Units other than weight or volume*. Where the amount or quantity on a license is shown in number of units other than weight or volume, a tolerance is allowed only as follows:

Raw cotton except lint (pounds and bales) (Processing code TEXT), Schedule B, Nos. 300006, 300206, 300302, 300304, 300308—10 percent (Bales).

2. Section 373.2 *Special provisions for iron and steel*, paragraph (b) (1) *Evidence of availability of material* is amended to read as follows:

(b) *Iron and steel commodities subject to export licensing general policy*.

All iron and steel products with the processing code STEE which are subject to the export licensing general policy set forth in § 373.1 will be licensed for export in accordance with the following special provisions:

(1) *Evidence of availability of material*. Applicants for licenses to export the iron and steel products described above must submit evidence of availability of the material as provided in § 373.16.

3. A new § 373.16 is added to read as follows:

§ 373.16 *Special provisions for certain commodities: evidence of availability*.

(a) *Evidence of availability*. (1) Applicants for licenses to export any of the commodities described in paragraph (b) of this section must submit an acceptance or commitment letter from the supplier, evidence of ownership (such as a bill of sale, invoice, or photostatic copy thereof), or other proof that the amount of material covered by the application is in fact available to him.

(2) The letter of commitment by the supplier must be dated and must show the quantity accepted or committed; letters of commitment which are more than 90 days old when the application is received by the Department of Commerce (or, where applicable, letters for commodities subject to timetable licensing which will be more than 90 days old on the last day for filing applications for the calendar quarter) will not be accepted.

(3) If the evidence of availability is from a supplier who is not a producer, the applicant shall furnish a statement from the supplier certifying that the material is actually in his possession or furnish clear evidence from the supplier that the material will be made available to him.

(4) If the commitment letter has been previously submitted in support of other license applications, the applicant also should state the case number and date of such applications; or, if the commit-

ment letter is used in support of several applications being submitted at the same time, this action together with reference numbers, should be stated in an accompanying letter.

NOTE: Applicants are cautioned that the submission of such proof of availability of material does not guarantee that applicant will receive a license for the full amount or any portion thereof which he may be able to procure.

(b) *Commodities*. The requirements of this section are applicable to the following Positive List commodities:

Aluminum and manufactures: Schedule B Nos. 629500 through 630998.

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue, Department of the Treasury

Subchapter A—Income and Excess Profits Taxes [T. D. 4917]

PART 20—RETURNS OF INFORMATION WITH RESPECT TO FOREIGN CORPORATIONS

REINSTATEMENT

Treasury Decision 4917, August 7, 1939 (4 F. R. 3582; 25 CFR, 1943 Cum. Supp., Part 20), is hereby reinstated as Part 20 of this chapter. This Treasury Decision was erroneously excluded from the Code of Federal Regulations, 1949 Edition, August 19, 1949 (14 F. R. 5199), at the request of the Bureau of Internal Revenue. As reinstated Part 20 reads as follows:

- Sec.
20.1 Introductory.
20.2 Information returns.
20.3 Form of return.
20.4 Contents of returns.
20.5 Verification of returns.
20.6 Place of filing returns.

AUTHORITY: §§ 20.1 to 20.6 issued under 53 Stat. 457; 26 U. S. C. 379. Interpret or apply 53 Stat. 436, as amended; 26 U. S. C. 3604.

§ 20.1 *Introductory.* Sections 20.1 to 20.6 are prescribed with respect to returns of information to be filed by attorneys, accountants, fiduciaries, banks, trust companies, financial institutions, or other persons as to the formation, organization, or reorganization of foreign corporations, all references to sections being to sections of the Internal Revenue Code, or such Code as amended, except as otherwise indicated.

§ 20.2 *Information returns—(a) General.* (1) Any attorney (except as provided in paragraph (b) (4) of this section), accountant, fiduciary, bank, trust company, financial institution, or other person, who aids, assists, counsels, or advises in, or with respect to, the formation, organization, or reorganization of any foreign corporation shall file with the Commissioner, within 30 days after giving such aid, assistance, counsel, or advice, an information return as provided in section 3604 (a) and the regulations

in this part. The return must be filed in every such case (i) regardless of the nature of the counsel or advice given, whether for or against the formation, organization, or reorganization of the foreign corporation, or the nature of the aid or assistance rendered and (ii) regardless of the action taken upon the advice or counsel, that is, whether the foreign corporation is actually formed, organized, or reorganized.

(2) If, in a particular case, the aid, assistance, counsel or advice given by any persons extends over a period of more than one day and not for more than 30 days, such person, to avoid the multiple filing of returns, may file a single return for the entire period. In such case, the return shall be filed within 30 days from the first day of such period. If, in a particular case, the aid, assistance, counsel, or advice given by any person extends over a period of more than 30 days, such person may file a return at the end of each 30 days included within such period and at the end of the fractional part of a 30-day period, if any, extending beyond the last full 30 days. In each such case, the return must disclose all the required information which was not reported on a prior return.

(b) *Special provisions—(1) Employers.* In the case of aid, assistance, counsel, or advice in, or with respect to, the formation, organization, or reorganization of a foreign corporation given by a person in whole or in part through the medium of subordinates or employees (including in the case of a corporation the officers thereof), the return of the employer must set forth to the full extent all information prescribed by the regulations in this part, including that which, as an incident to such employment, is within the possession or knowledge or under the control of such subordinates or employees.

(2) *Employees.* (i) The obligation of a subordinate or employee (including in the case of a corporation the officers thereof) to file a return with respect to any aid, assistance, counsel, or advice in, or with respect to, the formation, organization, or reorganization of a foreign corporation, given as an incident to his employment, will be satisfied if a complete and accurate return as prescribed by the regulations in this part is duly filed by the employer setting forth all of the information within the possession or knowledge or under the control of such subordinate or employee.

(ii) Clerks, stenographers, and other subordinates or employees, rendering aid or assistance solely of a clerical or mechanical character in, or with respect to, the formation, organization, or reorganization of a foreign corporation are not required to file returns by reason of such services.

(3) *Partners.* In the case of aid, assistance, counsel, or advice in, or with respect to, the formation, organization, or reorganization of a foreign corporation given by one or more members of a partnership in the course of its business, the obligation of each such individual member to file a return will be satisfied if a complete and accurate return, as prescribed by the regulations in this part, is duly filed by the partnership,

executed by all the members of the firm who gave any such aid, assistance, counsel, or advice. If, however, the partnership has been dissolved at the time the return is due, individual returns must be filed by each member of the former partnership who gave any such aid, assistance, counsel, or advice.

(4) *Attorneys-at-law.* An attorney-at-law is not required to file a return with respect to any advice given or information obtained through the relationship of attorney and client.

(5) *Returns jointly made.* If two or more persons aid, assist, counsel, or advise in, or with respect to, the formation, organization, or reorganization of a particular foreign corporation, any two or more of such persons may, in lieu of filing several returns, jointly execute and file one return.

(c) *Penalties.* For criminal penalties for failure to file the returns required by section 3604 (a) and the regulations in this part, see section 3604 (c).

§ 20.3 *Form of return.* The returns under § 20.2 shall be made on Form 959. Such forms may, upon request, be procured from any collector. Each person should carefully prepare his return so as to set forth fully and clearly the information called for therein. Returns which have not been so prepared will not be accepted as meeting the requirements of the Code.

§ 20.4 *Contents of returns.* (a) The return shall, in accordance with the provisions of §§ 20.1 to 20.6 and the instructions on the form, set forth the following information to the full extent such information is within the knowledge or possession or under the control of the person required to file the return:

(1) The name and the address of the person (or persons) to whom and the person (or persons) for whom or on whose behalf the aid, assistance, counsel, or advice was given;

(2) A complete statement of the aid, assistance, counsel, or advice given;

(3) Name and address of the foreign corporation and the country under the laws of which it was formed, organized, or reorganized;

(4) The month and year when the foreign corporation was formed, organized, or reorganized;

(5) A statement of how the formation, organization, or reorganization of the foreign corporation was effected;

(6) A complete statement of the reasons for, and the purposes sought to be accomplished by, the formation, organization, or reorganization of the foreign corporation;

(7) A statement showing the classes and kinds of assets transferred to the foreign corporation in connection with its formation, organization, or reorganization, including a detailed list of any stock or securities included in such assets, and a statement showing the names and addresses of the persons who were the owners of such assets immediately prior to the transfer;

(8) The names and addresses of the shareholders of the foreign corporation at the time of the completion of its formation, organization, or reorganiza-

tion, showing the classes of stock and number of shares held by each;

(9) The name and address of the person (or persons) having custody of the books of account and records of the foreign corporation; and

(10) Such other information as may be required by the return form.

(b) If a person aids, assists, counsel, or advises in, or with respect to, the formation, organization, or reorganization of more than one foreign corporation, a separate return must be filed with respect to each foreign corporation.

§ 20.5 Verification of returns. All returns required by section 3604 (a) and §§ 20.1 to 20.6 shall be verified under oath or affirmed. The oath or affirmation may be administered by a person authorized to administer oaths for general purposes by the law of the United States, or of any State, Territory, or possession of the United States, or of the District of Columbia, wherein such oath or affirmation is administered, or by a consular officer of the United States. Such returns executed abroad may be attested free of charge before United States consular officers. If a foreign notary or other official having no seal shall act as attesting officer, the authority of such attesting officer shall be certified to by some judicial official or other proper officer having knowledge of the appointment and official character of the attesting officer.

§ 20.6 Place of filing returns. Returns required by section 3604 (a) and §§ 20.1 to 20.6 shall be filed with the Commissioner of Internal Revenue, Washington, D. C., attention of the Income Tax Unit, Records Division.

2. Regulations 11 (26 CFR Part 189; 15 F. R. 4581), "Bottling of Tax-Paid Distilled Spirits" are hereby amended by adding a new section, as follows:

SUBPART S—DUMPING AND BOTTLING

§ 189.204a *Taxpayment of rinsings.* In lieu of the procedure prescribed in § 189.204 concerning the rinsing of packages, the proprietor may rinse and save the rinsings from packages, to any extent desired, which were not rinsed in the internal revenue bonded warehouse at the time of taxpayment and are so marked in accordance with the provisions of Regulations 10 (26 CFR Part 185): *Provided*, That the rinsings are run into a closed, locked tank for taxpayment of the proof gallon contents. Such rinsings may be used for reduction purposes in the taxpaid bottling house, or in a contiguous rectifying plant in the manufacture of rectified spirits or products subject to the rectification tax. When used for reduction, the rinsings must be used in similar spirits. When used in the manufacture of rectified spirits or products, the rinsings may be used with any other appropriate spirits. The tank into which the rinsings are run will be mounted on accurate scales, or equipped with a suitable measuring device whereby the contents can be accurately determined. Upon completion of the rinsing of the packages, the contents of the tank will be gauged by the Government officer and the proof gallon contents determined. The gauge of the tank will be made by weight (where the tank is mounted on scales) or by measure. The Government officer will prepare Form 1520, in triplicate, covering the gauge of the tank showing the proof gallons, and the kind and age of the spirits from which the rinsings were obtained and will deliver all copies to the proprietor. The proprietor will cancel the necessary number of distilled spirits stamps prescribed by Regulations 10 for the taxpayment of distilled spirits bottled in bond, in the exact amount of the tax due by legibly writing or stamping on each stamp with indelible (India) ink, his name, the registry number of the taxpaid bottling house, and the date of the Form 1520. The proprietor will then attach the stamps to the original copy of Form 1520

and submit it with all copies of Form 1520 to the Government officer. The Government officer will sign the stamps, followed by his title, and will execute on the back of Form 1520, a certificate of receipt evidencing the receipt and cancellation of stamps for the amount of tax due, attach the original copy of Form 1520 and the cancelled stamps to the tank, and then release the rinsings for reduction purposes or for transfer by pipeline to a contiguous rectifying plant for use in rectification, as authorized herein. The Government officer will give one copy of Form 1520 to the proprietor and retain the remaining copy. To identify properly the spirits in the tank, Form 1520 to which the stamps are attached will continue to remain on the tank until all the rinsings covered by such stamps have been removed, at which time such form with the stamps will be forwarded to the district supervisor. Where the rinsings are transferred by pipeline to a contiguous rectifying plant, an additional copy of Form 1520 will be forwarded to the Government officer assigned to such plant. When so transferred, the rinsings will be accounted for in the rectifying plant in the same manner as other spirits received for rectification. Packages of imported spirits may similarly be rinsed and the rinsings saved if taxpaid in accordance with this procedure. The proprietor shall keep a record on Form 1697, properly modified, of all distilled spirits stamps received and used at the taxpaid bottling house for taxpayment of rinsings authorized by this section. The form shall be disposed of in accordance with the instructions printed thereon. (53 Stat. 298 as amended; 335 as amended; 26 U. S. C. 2800, 2883.)

3. Regulations 15 (26 CFR 190; 15 F. R. 4790), "Rectification of Spirits and Wines", are hereby amended by adding two new sections, as follows:

SUBPART X—GAUGING AND DUMPING SPIRITS FOR RECTIFICATION

§ 190.443a *Taxpayment of rinsings.* In lieu of the procedure prescribed in § 190.443 concerning the rinsing of packages, the proprietor may rinse and save the rinsings from packages, to any extent desired, which were not rinsed in the internal revenue bonded warehouse at the time of taxpayment and are so marked in accordance with the provisions of Regulations 10 (26 CFR Part 185): *Provided*, That the rinsings are run into a closed, locked tank for taxpayment of the proof gallon contents. Such rinsings may be used for reduction purposes, or in the manufacture of rectified spirits or products subject to the rectification tax. When used for reduction, the rinsings must be used in similar spirits. When used in the manufacture of rectified spirits or products, the rinsings may be used with any other appropriate spirits. The tank into which the rinsings are run will be mounted on accurate scales, or equipped with a suitable measuring device whereby the contents can be accurately determined. Upon completion of the rinsing of the packages, the contents of the tank will be gauged by the Government officer and the proof gallon contents deter-

mined. The gauge of the tank will be made by weight (where the tank is mounted on scales) or by measure. The Government officer will prepare Form 1520, in triplicate, covering the gauge of the tank showing the proof gallons, and the kind and age of the spirits from which the rinsings were obtained and will deliver all copies to the proprietor. The proprietor will cancel the necessary number of distilled spirits stamps prescribed by Regulations 10 for the taxpayment of distilled spirits bottled in bond, in the exact amount of the tax due, by legibly writing or stamping on each stamp with indelible (India) ink, his name, the registry number of the rectifying plant, and the date of the Form 1520. The proprietor will then attach the stamps to the original copy of Form 1520 and submit it with all copies of Form 1520 to the Government officer. The Government officer will sign the stamps, followed by his title, and will execute, on the back of Form 1520, a certificate of receipt evidencing the receipt and cancellation of stamps for the amount of tax due, attach the original copy of Form 1520 and the cancelled stamps to the tank, and then release the rinsings for reduction purposes or for use in rectification, as authorized herein. The Government officer will give one copy of Form 1520 to the proprietor and retain the remaining copy. To identify properly the spirits in the tank, Form 1520 to which the stamps are attached will continue to remain on the tank until all the rinsings covered by such stamps have been removed, at which time such form with the stamps will be forwarded to the district supervisor. Packages of imported spirits may similarly be rinsed and the rinsings saved if taxpaid in accordance with this procedure. The proprietor shall keep a record on Form 1697, properly modified, of all distilled spirits stamps received and used at the rectifying plant for taxpayment of rinsings authorized by this section. The form shall be disposed of in accordance with the instructions printed thereon. (53 Stat. 298 as amended; 335 as amended; 26 U. S. C. 2800, 2883.)

SUBPART FF—BOTTLING OF UNRECTIFIED SPIRITS AND WINES

§ 190.696a *Taxpayment of rinsings.* In lieu of the procedure prescribed in § 190.696 concerning the rinsing of packages, the proprietor may rinse and save the rinsings from packages, to any extent desired, which were not rinsed in the internal revenue bonded warehouse at the time of taxpayment and are so marked in accordance with the provisions of Regulations 10 (26 CFR Part 185): *Provided*, That the rinsings are run into a closed, locked tank for taxpayment of the proof gallon contents. Such rinsings may be used for reduction purposes, or in the manufacture of rectified spirits or products subject to the rectification tax. When used for reduction, the rinsings must be used in similar spirits. When used in the manufacture of rectified spirits or products, the rinsings may be used with any other appropriate spirits. The construction of the tank, the gauging, taxpayment and the use of the rinsings, and the account-

ing for distilled spirits stamps received and used for the taxpayment of such rinsings, will be in accordance with the provisions of § 190.443a. Packages of imported spirits may similarly be rinsed and the rinsings saved if taxpaid in accordance with this procedure. (53 Stat. 298 as amended, 335 as amended; 26 U. S. C. 2800, 2833.)

4. It is found that compliance with the notice, public rule-making procedure, and effective date requirements of the Administrative Procedure Act (5 U. S. C. 1001, et seq.) is unnecessary in connection with the issuance of these regulations for the reason that the changes made are of a liberalizing and optional character.

5. The purpose of these amendments is to authorize proprietors of tax-paid bottling houses and rectifying plants to taxpay spirits contained in rinsings obtained from (1) packages dumped for bottling or rectification which were not rinsed in the internal revenue bonded warehouse at the time of taxpayment, and (2) packages of imported spirits which are not rinsed at the time of withdrawal from customs, and to use such rinsings for reduction purposes, or in the manufacture of rectified spirits or products subject to the rectification tax.

6. This Treasury decision will be effective upon the date of publication in the FEDERAL REGISTER.

TITLE 32—NATIONAL DEFENSE

Chapter VII—Department of the Air Force

PART 833—DEATH GRATUITY

PART 865—RETIREMENT OF AIR FORCE RESERVE PERSONNEL

PART 886—DISLOYAL OR SUBVERSIVE PERSONNEL

PAYMENTS; YEAR OF SATISFACTORY FEDERAL
SERVICE FOR ELIGIBILITY FOR RETIRE-
MENT; REJECTION FOR MILITARY SERVICE

1. Section 833.7 is changed to read as follows:

§ 833.7 *Payments.* Determination of the accounting and disbursing officer who will make payment of the six months' death gratuity is dependent upon the categorization of the decedent and the class of beneficiary to be considered for payment.

(a) *Category I.* Claims for payment of gratuity resulting from the death of members in this category will be paid by the accounting and disbursing officer serving the organization or installation to which the decedent was assigned at time of death. (See exceptions in paragraphs (d) and (e) of this section.)

NOTE: If the misconduct status is in question no action will be taken by way of pro-

viding forms or in connection with the payment of gratuity until such misconduct status is determined in accordance with applicable regulations.

(b) *Category II.* (1) Gratuity pay claims resulting from the death of members in this category will be paid by the accounting and disbursing officer designated to pay the accounts of the Reserve Forces as prescribed by current regulations. (See exceptions in paragraphs (d) and (e) of this section.)

(2) Gratuity pay claims resulting from the death of members in this category who are not in a pay status but who are nevertheless entitled to the benefits set forth in the act of June 20, 1949 (Pub. Law 108, 81st Cong.; 10 U. S. C., Sup. III, 456), will be paid by the accounting and disbursing officers charged with disbursements for the areas in which the decedents resided. (See exceptions in paragraphs (d) and (e) of this section.)

(3) Since a line of duty investigation is required in any case in this category in accordance with current regulations, the accounting and disbursing officer will take no action in connection with gratuity payment until the Death Report, containing a certification of the availability of funds to be used, is received from the Casualty Branch, Director of Military Personnel, Headquarters United States Air Force, through channels. The accounting and disbursing officer will then take immediate steps to furnish Finance Department Form 6 or Standard Form 1034 to the potential beneficiary.

(c) *Category III.* (1) Gratuity pay claims resulting from the death of members in this category will be paid by the accounting and disbursing officer serving the organization or installation to which the decedent was assigned at the time a determination of finding of death is made, as in the case of Category I (paragraph (a) of this section), except that payment will not be effected until the Death Report is issued. (See exceptions in paragraphs (d) and (e) of this section.) The accounting and disbursing officer will then take immediate steps to furnish Finance Department Form 6 or Standard Form 1034 to the potential beneficiary.

(2) Where the determination or presumptive finding of death is made by the Deputy Chief of Staff, Personnel, the accounting and disbursing officer at Bolling Air Force Base, Washington 25, D. C., will effect payment of the gratuity.

(d) *Exception; beneficiaries who must show dependency or insurable interest.*

(1) If the beneficiary is one who must show a dependency upon or an insurable interest in the continued life of the decedent, a determination of the proper payee and the accounting and disbursing officer who will make payment will be made by the Director of Finance, Headquarters United States Air Force, Washington 25, D. C., in accordance with the approved policies of the Department of the Air Force, regardless of the category of the decedent.

(2) In these cases, the appropriate accounting and disbursing officer (depending upon the category of the decedent) will forward Finance Department Form

6 or Standard Form 1034 to the potential beneficiary, with instructions to return the executed claim to the Director of Finance, Headquarters United States Air Force, Washington 25, D. C.

(e) *Exception; death outside United States.* Where a member dies outside the United States and his beneficiary does not reside in the same area or in an area which may be served expeditiously by the accounting and disbursing officer making payments in the area in which the death occurred, payment will be effected by the accounting and disbursing officer, Bolling Air Force Base, Washington 25, D. C. Documents to support such payment will be furnished by the accounting and disbursing officer paying the unit to which the decedent was assigned.

2. Paragraph (c) (7) of § 865.3 is amended as follows:

§ 865.3 *Year of satisfactory Federal service for eligibility for retirement.*

(c) On and after July 1, 1949, a year of satisfactory Federal service will be any year in which a Reservist attains a minimum of 50 points. The number of points earned in a year will be computed as follows:

(7) One point for each three hours of extension courses, above precommissioning and indoctrination course level, satisfactorily completed for officers; one point for each three hours of extension courses satisfactorily completed for airmen.

3. Section 886.1 is changed to read as follows:

§ 886.1 *Rejection for military service—(a) General.* In no case will any person who admits, or whose available records show, that he has at any time engaged in disloyal or subversive activities be appointed or enlisted in the Air Force without the specific approval of the Department of the Air Force.

(b) *Loyalty certificate.* Every applicant for appointment or enlistment in the Air Force will be required to read paragraph 2 of Air Force Regulation 35-62, May 2, 1949, and to execute Department of Defense Form 98, "Loyalty Certificate for Personnel of the Armed Forces."

NOTE: The contents of paragraph 2, Air Force Regulations 35-62, May 2, 1949, are contained in § 886.2.

(1) *Applicants for appointment.* The completed certificate, Department of Defense Form 98, and the consolidated list of subversive organizations, Department of Defense Form 98A, will be attached as an inclosure to the application for appointment. If, after proper instruction, an applicant fails to execute the certifi-

cate in its entirety or indicates, in its execution, that there is any reason to question his complete loyalty, his appointment will be withheld and the application and allied papers will be forwarded to Headquarters United States Air Force, Director of Training, Attention: Personnel Procurement Division, Washington 25, D. C., for appropriate action and decision.

(2) *Applicants for enlistment.* When the person acknowledges that he is or has been a member of a subversive organization, the completed Department of Defense Form 98 and any other pertinent data will be forwarded to Headquarters United States Air Force, Director of Training, Attention: Personnel Procurement Division, Washington 25, D. C., for determination as to whether or not he should be enlisted.

(c) *Personnel affected.* The provisions of this section are applicable to officers' and warrant officers' appointments and to voluntary enlistments, and do not apply to inductees.

NOTICE OF APPLICATION

OCTOBER 5, 1950.

Take notice that Hope Natural Gas Company (Applicant), a West Virginia corporation, address, Clarksburg, West Virginia, filed on September 26, 1950, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing a change in operations of certain natural-gas transmission facilities.

NOTICE OF APPLICATION

OCTOBER 5, 1950.

Take notice that on September 28, 1950, Atlantic Seaboard Corporation (Applicant), a Delaware corporation with its principal place of business at Charleston, West Virginia, filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing Applicant to construct and operate a measuring and regulating station at a new point on its 26-inch natural-gas transmission pipeline in Beverly District, Randolph County, West Virginia, for the sale and delivery of natural gas to Cumberland and Alleghany Gas Company (Cumberland), an affiliate, for resale to its customers in West Virginia. Request is made for an order of the Commission dismissing the foregoing application should it be determined the facilities for which authorization is sought herein are excluded from the meaning of "facilities" by § 255 (c) of the Commission's general rules and regulations.

The application recites the proposed point of connection will be a new point of delivery and the volumes delivered therefrom will be in addition to those previously estimated to be made at a location near Beverly, West Virginia, authorized by the Commission under Docket No. G-1249; that the introduction of a new supply of gas into the central part of Cumberland's system will enable Cumberland to balance more evenly the pressure in that system to meet the growing requirements of its customers.

Applicant states that on a basis of a delivery of 1,679,000 Mcf to Cumberland during the first full year of operation additional revenues and estimated expenses will be: total revenue, \$435,160; total incremental expenses, \$362,485. OHIO EDISON CO.

ORDER GRANTING APPLICATION AND PERMITTING
DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 4th day of October A. D. 1950.

Ohio Edison Company ("Ohio"), a registered holding company and a public utility company, having filed an application-declaration, and amendments thereto, pursuant to sections 6 (a), 7, 12 (c) and 12 (d) of the Public Utility Holding Company Act of 1935 (the "Act") and Rules U-42 and U-50 promulgated thereunder, relating to the following proposed transactions:

Ohio proposes to issue 396,571 shares of additional common stock of a par value of \$8 per share, pursuant to a warrant offering to its common stockholders of record at the close of business on October 11, 1950, at the rate of one share of additional common stock for each 10 shares of common stock held, at a price to be determined by its Board of Directors. The holders of warrants will also be entitled to subscribe, subject to allotment, at the same price for the shares covered by outstanding unexercised warrants.

Such shares as are not subscribed for by the stockholders and such shares as are acquired by Ohio in connection with stabilizing the price of the common stock, as described more fully below, are to be offered to underwriters who, under the competitive bidding requirements of Rule U-50, will be invited to submit bids for the purchase of such common stock. The price per share at which Ohio proposes to offer the additional shares of its common stock to underwriters will be the same as the subscription price. Prospective underwriters who have qualified to bid on the shares of Ohio's additional common stock will be notified of the price per share, as determined by the Board of Directors, at least 42 hours prior to the time for the receipt of the bids. The invitation for bids will request the prospective underwriters to name the amount of compensation, if any, to be paid by the company to such underwriters for their services.

The filing states that Ohio may, during the period commencing with the first business day prior to the date when the price per share is determined by the Board of Directors and ending at the time of acceptance of a bid for the stock, purchase up to 39,657 shares of its common stock on the New York Stock Exchange, on the Midwest Stock Exchange, or otherwise, such purchases to be made through brokers with the payment of the regular stock exchange commissions.

The applicant-declarant has requested that the competitive bidding period provided by Rule U-50 be shortened to 6 days so that bids may be received on or about October 11, 1950.

The proceeds of the sale of the stock will be utilized by Ohio in connection with its future construction program and possibly for the increase, to the extent of \$1,200,000, of its investment in the common stock of its public utility subsidiary, Pennsylvania Power Company.

Appropriate notice of said filing having been given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for a hearing with respect to said application-declaration within the period specified, or otherwise, and not having ordered a hearing thereon;

The Commission finding with respect to said application-declaration that the requirements of the applicable provisions of the act and the rules thereunder are satisfied, that no adverse findings are necessary thereunder, and deeming it appropriate in the public interest and in the interest of investors and consumers that the said application-declaration be granted and permitted to become effective;

It is hereby ordered. Pursuant to said Rule U-23 and the applicable provisions of said act, that said application-declaration be, and the same hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24 and to the further conditions:

1. That the proposed issuance and sale of common stock shall not be consummated until the subscription price of such stock, and the results of competitive bidding herein proposed pursuant to Rule U-50, shall have been made a matter of record herein and a further order shall have been entered with respect thereto in the light of the record so completed, which order may contain such further terms and conditions as may then be deemed appropriate.

2. That jurisdiction be, and the same hereby is, reserved with respect to all fees and expenses to be paid in connection with the proposed transaction, and with respect to accounting entries in connection with such fees and expenses.

It is further ordered. That the 10-day period for inviting bids, as provided by Rule U-50 (b), be shortened to a period of not less than 6 days.

By the Commission.

STANDARD POWER AND LIGHT CORP. AND
STANDARD GAS AND ELECTRIC CO.

ORDER GRANTING APPLICATION AND PERMITTING
DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 4th day of October 1950.

Standard Power and Light Corporation ("Standard Power"), a registered

holding company, and its subsidiary, Standard Gas and Electric Company ("Standard Gas"), also a registered holding company, have filed a joint application-declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("act") with respect to the following proposed transaction:

Standard Power is the holder of a 4 percent unsecured promissory note issued by Standard Gas in the principal amount of \$983,930. Such note originally was due October 10, 1949 but was extended to October 10, 1950 by agreement of the parties and with the approval of the Commission (Holding Company Act Release No. 9402). The note was issued pursuant to authorization of this Commission in File No. 70-1211 in lieu of the payment of cash by Standard Gas to Standard Power in retirement of the latter's holdings of certain notes and debentures of Standard Gas. Such authorization permitted the issuance of the note "upon the condition that Standard Power and Light Corporation held such note subject to the infirmities, if any, which presently inhere in its holdings of notes and debentures of Standard Gas and Electric Company and without prejudice to the right of the Commission to take such further action as may from time to time be appropriate under the applicable provisions of the act and the rules and regulations thereunder". The nature or extent of the aforementioned infirmities, if any, not having been determined, the original maturity date of such note was previously extended in order to maintain the status quo. Applicants-declarants state that the nature or extent of the infirmities, if any, are still undetermined and therefore propose a further extension of the maturity date from October 10, 1950 to October 10, 1951.

Said application-declaration having been filed on September 7, 1950, and notice of said filing having been duly given in the form and manner prescribed by Rule U-23 promulgated under the act, and the Commission not having received a request for a hearing with respect to said application-declaration within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding that said application-declaration satisfies the requirements of the applicable provisions of the act and the rules thereunder, that no adverse findings are necessary in connection with the proposed transaction, and that the application-declaration should be granted and permitted to become effective forthwith without the imposition of terms and conditions other than contained in Rule U-24;

It is ordered. Pursuant to said Rule U-23 and the applicable provisions of the act, that the application-declaration be, and the same hereby is, granted and permitted to become effective forthwith, subject to the terms and conditions contained in Rule U-24.

By the Commission.

Secretary.

OKLAHOMA GAS AND ELECTRIC CO. AND
STANDARD GAS AND ELECTRIC CO.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Washington, D. C., on the 4th day of October 1950.

Notice is hereby given that a joint application-declaration and an amendment thereto have been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("act"), and the general rules and regulations promulgated thereunder, by Oklahoma Gas and Electric Company ("Oklahoma"), and its parent Standard Gas and Electric Company ("Standard Gas"), a registered holding company. Applicants-declarants designate sections 6 (a), 10 and 12 (e) of the act and Rules U-23, U-24, and U-62 promulgated thereunder as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than October 16, 1950, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by said joint application-declaration, as amended, proposed to be controverted or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street, N. W., Washington 25, D. C. At any time thereafter, said joint application-declaration, as filed or as further amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated pursuant to said act, or the Commission may exempt such transactions as provided in Rules U-20 (a) and U-100 thereof.

All interested persons are referred to said joint application-declaration, as amended, which is on file in the office of this Commission, for a statement of the transactions therein proposed, which are summarized below:

Oklahoma's presently authorized capital stock consists of \$30,000,000 of 4 percent Cumulative Preferred Stock, par value \$20 per share, divided into 1,500,000 shares, of which there are 675,000 shares presently allotted and outstanding; \$7,500,000 of Cumulative Preferred Stock, par value \$100 per share, divided into 75,000 shares, of which 65,000 shares are allotted and outstanding; and \$35,810,000 of Common Stock, par value \$20 per share, divided into 1,790,500 shares, of which there are 1,076,900 shares outstanding, and of which 605,045 shares are owned by Standard Gas. Under Oklahoma's Amended Articles of Incorporation, the 4 percent Cumulative Preferred Stock and the Common Stock are entitled to one vote per share but the Cumulative Preferred Stock has no normal voting rights. On the basis of the presently outstanding stock, the 4 percent Cumulative Preferred Stock and the Common Stock have 38.53 percent and 61.47 percent of the voting power, respectively. The Amended Articles of

Incorporation permit the Board of Directors to fix the dividend rates, redemption prices, and voluntary liquidation prices of shares of its unallotted and unissued Cumulative Preferred Stock upon allotment and issuance.

Oklahoma proposes to amend its Amended Articles of Incorporation: (a) to change the number of shares and par value of its 825,000 shares of 4 percent Cumulative Preferred Stock which are presently authorized but unallotted and unissued to 165,000 shares of Cumulative Preferred Stock of the par value of \$100 per share; (b) to change the number of shares and par value of its presently authorized 1,790,500 shares of Common Stock to 3,581,000 shares of the par value of \$10 per share; and (c) to change the voting rights of the holders of the outstanding 4 percent Cumulative Preferred Stock and Common Stock from one vote per share to one vote for each \$10 of par value of such stock.

Under said proposal, each share of Oklahoma's Common Stock outstanding at the time the par value thereof is changed shall become, without further action, two shares of Common Stock, par value \$10 per share, pending exchange of the certificates therefor.

Oklahoma represents that the dividend rate, the redemption prices, and voluntary liquidation price of its presently authorized 4 percent Cumulative Preferred Stock are fixed by the provisions of its Amended Articles of Incorporation; that the proposed reclassification of its presently authorized but unallotted and unissued 825,000 shares of said 4 percent Cumulative Preferred Stock will enable the Board of Directors to fix the dividend rates, the redemption prices, and the voluntary liquidation prices of said shares of stock and thus enable the company to take advantage of current market conditions at the time of allotment and issuance of such shares.

Oklahoma states that as soon as such transaction becomes economically sound, it intends to refund the presently outstanding \$6,500,000 par value of its Cumulative Preferred Stock, 5 1/4 percent Series, with an equal amount of authorized but unallotted and unissued Cumulative Preferred Stock which will have a lower dividend rate.

Oklahoma further states that it is its intention to finance part of its construction program by the issuance and sale of additional shares of its authorized but unissued Common Stock and that the proposed reclassification of such stock from \$20 to \$10 par value per share will afford a better market for such shares.

Oklahoma also represents that the proposed alteration in voting rights of the outstanding 4 percent Cumulative Preferred Stock and Common Stock will not affect the present proportionate voting rights of such stock.

Oklahoma also proposes to submit to its shareholders, at a special meeting called for that purpose, the proposed amendments to its Amended Articles of Incorporation. For the amendments to become effective, under the Oklahoma Business Corporation Act, they must be approved by the holders of a majority of all classes of Oklahoma's outstanding shares, and, pursuant to the Amended

Articles of Incorporation, the approval of a majority of the holders of the Common Stock voting as a class is also required. In connection with said shareholders' meeting, Oklahoma requests the entry of an order by this Commission approving the company's proposal to solicit proxies for approval of said proposed amendments from holders of all classes of its outstanding shares and Oklahoma asserts that no material conflict of interest exists between the different classes of security holders concerning the proposed transactions.

Standard Gas, as the holder of 605,045 shares of the presently outstanding Common Stock of Oklahoma, seeks approval of the acquisition of 1,210,090 shares of the proposed new Common Stock by exchanging its presently held certificates for new certificates representing such new Common Stock.

Applicants-declarants estimate that the fees and expenses in connection with the proposed transactions will amount to \$9,850, including legal fees in the amount of \$2,500. All of such expenses and fees are to be paid by Oklahoma.

Applicants-declarants request that the Commission issue its order herein on or before October 17, 1950, granting said application and permitting said declaration to become effective forthwith.

By the Commission.

Notice is hereby given that an application has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Niagara Mohawk Power Corporation ("Niagara Mohawk"), a subsidiary of Niagara Hudson Power Corporation, a registered holding company. Applicant has designated section 6 (b) of the act as applicable to the proposed transaction.

Notice is further given that any interested person may, not later than October 18, 1950, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said application which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. At any time after October 18, 1950, said application, as filed or as amended, may be granted as provided in Rule U-23 of the rules and regulations promulgated under the act or the Com-

mission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof.

All interested persons are referred to said application which is on file in the office of this Commission for a statement of the transaction therein proposed, which is summarized as follows:

Niagara Mohawk proposes to issue and sell pursuant to the competitive bidding requirements of Rule U-50, \$40,000,000 principal amount of General Mortgage Bonds -- percent Series due October 1, 1980. It is proposed that the bonds will bear interest at a rate not in excess of 3 percent per annum and will be issued under the Mortgage Trust Indenture dated as of October 1, 1937, between Niagara Mohawk (then Central New York Power Corporation) and The Marine Midland Trust Company of New York, as Trustee, as heretofore supplemented and amended and as to be supplemented by a further Supplemental Indenture to be dated as of October 1, 1950. The proceeds from the sale of the new bonds will be used by Niagara Mohawk (1) to pay bank loan indebtedness of \$20,000,000, (2) to refund the \$15,639,000 principal amount of The Niagara Falls Power Company First and Refunding Mortgage Bonds, 3 1/2 percent Series due 1966, to be assumed by Niagara Mohawk upon the merger of that company with Niagara Mohawk (an application-declaration with respect to such merger having been granted and permitted to become effective by Order of the Commission dated October 4, 1950), and (3) to the extent remaining, for additional utility plant, particularly steam-electric and hydro-electric generating capacity.

The application indicates that the order of the Public Service Commission of the State of New York when received will be supplied by amendment to this application.

By the Commission.
